

Anthony S. Fauci

Quotes

*Vaccines, Impact, People, Children, Thinking, Ebola, Hiv, World, Country,
Disease, Epidemics, Responsibility, Skins, Two, Believe, Body, Viruses,
Different, Way, Levels*

When I was a child, there were not that many vaccines. I was vaccinated for polio. I actually got measles as a child. I got pertussis, whooping cough. I remember that very well.

~Anthony S. Fauci

Previous efforts to eradicate malaria failed for several reasons, including political instability and technical challenges in delivering resources, especially in certain countries in Africa.

~Anthony S. Fauci

The immune systems goal is to protect the body against invaders either from without, such as microbes, or from within, such as cancers and different types of neoplastic transformation.

~Anthony S. Fauci

One of the by-products of being a perfectionist and constantly trying to improve myself are sobering feelings of low-grade anxiety and a nagging sense of inadequacy This anxiety keeps me humble.

~Anthony S. Fauci

We feel confident that there won't be an outbreak.

~Anthony S. Fauci

I believe I have a personal responsibility to make a positive impact on society.

~Anthony S. Fauci

I think, collectively, we should be paying more attention to what is going on around us in the world among people who don't have the advantages that we have.

~Anthony S. Fauci

The world is a place that is so interconnected that what happens in another part of the world will impact us.

~Anthony S. Fauci

Today we know the best way to prevent the spread of Ebola infection is through public health measures.

~Anthony S. Fauci

There has been treatment for hepatitis C, but the treatment has not been overwhelmingly effective, number 1. And number 2, it has had considerable toxicity.

~Anthony S. Fauci

Although it is still important to develop an HIV vaccine, we have significant tools already at our disposal that can make a major impact on the trajectory of this epidemic.

~Anthony S. Fauci

Investigating rare diseases gives researchers more clues about how the healthy immune system functions.

~Anthony S. Fauci

It is an indescribable experience knowing that what you are doing will have an impact on the lives... of millions of people.

~Anthony S. Fauci

The worst potential bio-terrorist is nature itself.

~Anthony S. Fauci

There cannot be any impediment to science that will ultimately be good to the general public.

~Anthony S. Fauci

I believe in striving for excellence. I sweat the big and small stuff! I do not apologize for this.

~Anthony S. Fauci

You help someone's health, and you prevent them from infecting others.

~Anthony S. Fauci

Science is telling us that we can do phenomenal things if we put our minds and our resources to it.

~Anthony S. Fauci

A pandemic influenza would mean widespread infection essentially throughout every region of the world.

~Anthony S. Fauci

When you put someone on therapy, you lower the level of virus such that it makes it very difficult for them to infect others.

~Anthony S. Fauci

I enjoy very much communication. I think that scientists need to communicate.

~Anthony S. Fauci

When a company is fairly certain of a profit margin that is substantial, it can assume responsibility for the clinical trials to develop a blockbuster drug.

~Anthony S. Fauci

Activism has been very productive in our society.

~Anthony S. Fauci

We are grateful to the Liberian people who volunteered for this important clinical trial and encouraged by the study results seen with the two investigational Ebola vaccine candidates.

~Anthony S. Fauci

You dont have to vaccinate every man, woman and child in the country

if you have a couple of cases of smallpox cropping up.

~Anthony S. Fauci

You can have an epidemic in a state. You can have it in a region. You can have it in a country where the critical level of disease passes a certain threshold and we call that an epidemic threshold.

~Anthony S. Fauci

The bodys immune system is like any other system of the body. Each of them have their vital function for the human host.

~Anthony S. Fauci

Testing two vaccines against different H1N1s at the same time has never been done.

~Anthony S. Fauci

The Europeans have lots of data on the use of adjuvanted flu vaccine in the elderly, but I dont think anybody has really good data on adjuvants in children.

~Anthony S. Fauci

Staph lives on skin. Thats the reason why many infections start as a boil.

~Anthony S. Fauci

I run a modest-sized laboratory thats looking specifically at what we call the pathogenic mechanisms of HIV disease, or AIDS.

~Anthony S. Fauci

Im generally considered a conservative in my predictions for disease.

~Anthony S. Fauci

Better ways to diagnose, treat and prevent E. coli 0157:H7 infections are badly needed.

~Anthony S. Fauci

Certainly the support for research in HIV/AIDS was good in the Clinton administration, good in the Bush administrations. It just was.

~Anthony S. Fauci

We can sharply deflect the curve of HIV incidence.

~Anthony S. Fauci
