Computers had their origin in military cryptography-in a sense, every computer game represents the commandeering of a military code-breaking apparatus for purposes of human expression.

~Austin Grossman

The video game story-development process is incredibly broken.

~Austin Grossman

When you can't bear something but it goes on anyway, the person who survives isn't you anymore; you've changed and become someone else, a new person, the one who did bear it after all.

~Austin Grossman

There's a fine line between a superpower and a chronic medical condition.

~Austin Grossman

Video games are a huge, incredibly popular, world-transforming medium.

~Austin Grossman

One day you wake up and realize the world can be conquered.

~Austin Grossman

Wearing a cape doesn't do much for your social life.

~Austin Grossman

When you get your powers, you learn a lot about yourself. My professors called me mad. It was time for me to stop punishing myself, and start punishing everybody else.

~Austin Grossman

There are days when you just don't feel all that evil." You don't become a world-class villain overnight." -Dr. Impossible

~Austin Grossman

With 'Invincible', I wanted to create my own version of the Marvel or DC universe, with my own heroes and villains.
