But the technology was accessible, which suggests incompetence on the part of our counterintelligence community and the Clinton Administration, and may in fact rise to the level of treason.

~Charles Bass

Since 1998, the Administration has begun to upgrade counterintelligence and security at U.S. weapons labs.

~Charles Bass

The Intelligence Committee will also examine present counterintelligence programs for the Department of Energy, the National Laboratories, and the Department of Defense.

~Charles Bass

The Cox Report documents a systematic, well-planned effort by the Chinese military at the highest levels to target and acquire technology for military modernization.

~Charles Bass

Despite the best of efforts, many foster children are neither reunited with their families, nor adopted.

~Charles Bass

For four years, I listened to stories of intelligence failures, and it wasn't due to incompetence of anyone in the system, but that the system is so arcane.

~Charles Bass

As the war on terrorism spreads and prolongs, the fruits of ending the threat of terrorism around the world will be tempered with a whole new series of problems to be addressed and resolved.

~Charles Bass

The United States government first learned of the diversion of the W-88

nuclear warhead design in late 1995.

~Charles Bass

In its report, the Cox Committee concludes that China is using stolen U.S. design information to speed up its deployment of a new nuclear missile force.

~Charles Bass

Like any good spy novel, the Cox Report alleges that Chinese spies penetrated four U.S. weapons research labs and stole important information on seven nuclear warhead designs.

~Charles Bass

The Cox Committee found that the Chinese military acquired many of the technologies over the past seven years, although many of them had been targeted for acquisition for more than a quarter century.

~Charles Bass

As a member of the House Select Committee on Intelligence, I will be participating in several hearings on the startling revelations contained in the report.

~Charles Bass

Most of the major increases in the debt ceiling have been accompanied by structural changes in the way we raise and spend money.

~Charles Bass

Why did the Clinton Administration continue to liberalize export controls on sensitive technologies even after it learned that China had stolen designs?

~Charles Bass

The committee's finding that China stole sensitive technology from U.S. weapons research labs is alarming.

~Charles Bass

What are the implications of a China that may be on nuclear parity with the United States?

~Charles Bass

China has legally purchased high performance computers, advanced machine tools, and semiconductor-manufacturing equipment from several American companies.

~Charles Bass

These children should be enrolled in Independent Living programs designed by state and local governments to prepare them to enter the workplace, or attend college, and successfully manage their lives.

~Charles Bass

There are things I want to get done, and If I can reconnect where I was before, working on the issues I'm interested in, that's exciting to me.

~Charles Bass
