

Cliff Stearns Quotes

*Generations, Energy, People, September 11, Spy, Long, Religion, Historical,
Cloning, Technology, Believe, College, Pages, Demand, Protect And Serve,
Target, Hijacking, Availability, Fighting, Today*

Markets rebounded quickly from morning jitters after the London Thursday terrorist bombing.

~Cliff Stearns

We are the biggest donor to the United Nations, contributing 22 percent of the regular operating budget and nearly 27 percent of the peacekeeping budget.

~Cliff Stearns

The Spy Act prohibits keystroke logging, hijacking, and phishing.

~Cliff Stearns

U.S. economic prosperity is closely tied to the availability of a reliable and affordable supply of energy.

~Cliff Stearns

As the economy grows, so will the demand for energy.

~Cliff Stearns

At the bottom, the elimination of spyware and the preservation of privacy for the consumer are critical goals if the Internet is to remain safe and reliable and credible.

~Cliff Stearns

On September 11, the murders of World Trade Center employees and visitors took the lives of numerous nationalities, ethnic groups and religious followers.

~Cliff Stearns

Canada is currently the only major industrialized country in the world that does not allow any private administration of health care services that are provided by the public system.

~Cliff Stearns

I think the American people, understandably, have sort of lost faith in the United Nations.

~Cliff Stearns

Certainly, the murder of civilians for political statement did not just begin on September 11, 2001.

~Cliff Stearns

Perhaps these Ten Commandments cases will be the turning point in the legal war against religion.

~Cliff Stearns
