Things like water and sewage systems require states in a large-scale society, but states are also a good mechanism for dealing with health care, education, public transportation, and infrastructure.

~Cynthia Kauffman

The terms socialist and communist are mostly about describing the world we want after capitalism, and I think they are both important.

~Cynthia Kauffman

Second-wave feminists didn't look for an overthrow of patriarchy. Instead, they analyzed what they were up against and fought it in all of its varied manifestations.
