

Dmitri Mendeleev

Quotes

*Elements, Weight, Science, Law, Looks, Order, World, Hate, Long, Discovery,
Would Be, Tables, Ocean, Men, Irs, Dream, Equilibrium, Character,
Determined, Air*

The most all penetrating spirit before which will open the possibility of tilting not tables, but planets, is the spirit of free human inquiry. Believe only in that.

~Dmitri Mendeleev

Work, look for peace and calm in work: you will find it nowhere else.

~Dmitri Mendeleev

I saw in a dream a table where all the elements fell into place as required. Awakening, I immediately wrote it down on a piece of paper.

~Dmitri Mendeleev

Knowing how contented, free, and joyful is life in the world of science, one fervently wishes that many would enter its portals.

~Dmitri Mendeleev

Certain characteristic properties of elements can be foretold from their atomic weights.

~Dmitri Mendeleev

The magnitude of the atomic weight determines the character of the element, just as the magnitude of the molecule determines the character of a compound body.

~Dmitri Mendeleev

No one nor anything can silence me.

~Dmitri Mendeleev

There exists everywhere a medium in things, determined by equilibrium.

~Dmitri Mendeleev

Elements which are similar as regards their chemical properties have atomic weights which are either of nearly the same value (eg. Pt, Ir, Os)

or which increase regularly (eg. K, Ru, Cs).

~Dmitri Mendeleev

If all the elements are arranged in the order of their atomic weights, a periodic repetition of properties is obtained. This is expressed by the law of periodicity.

~Dmitri Mendeleev

Work, look for peace and calm in work: You will find it nowhere else. Pleasures flit by -- they are only for yourself; work leaves a mark of long-lasting joy, work is for others.

~Dmitri Mendeleev

There is nothing in this world that I fear to say.

~Dmitri Mendeleev

We must expect the discovery of many as yet unknown elements-for example, elements analogous to aluminum and silicon- whose atomic weight would be between 65 and 75.

~Dmitri Mendeleev

I have achieved an inner freedom.

~Dmitri Mendeleev

The elements which are the most widely diffused have small atomic weights.

~Dmitri Mendeleev

I have to talk like this! It`s my job

~Dmitri Mendeleev

The elements, if arranged according to their atomic weights, exhibit an apparent periodicity of properties.

~Dmitri Mendeleev

No law of nature, however general, has been established all at once; its recognition has always been preceded by many presentiments.

~Dmitri Mendeleev
