

Duane G. Carey

Quotes

*Space, Careers, Way, People, Jobs, Goal, Done, Views, Looking Forward,
Earth, Pilots, Second Chance, Together, Flying, Travel, Columbia, Air, Thinking,
Each Day, Sight*

You know, Scooter's going to do the first separation burn; I'm going to do the second separation burn.

~Duane G. Carey

Well, for me it really wasn't a case of deciding to be an astronaut.

~Duane G. Carey

And, so I set my goals on astronaut because, as a military aviator, it was, I considered that to be about the peak of a flying career.

~Duane G. Carey

And, obviously as a, as one who likes to travel around myself a lot, I think the Earth is a beautiful place. And, I'm looking forward to some new perspectives.

~Duane G. Carey

So, I decided that whatever I was, wanted to do with my life, it would have to do, it would have to have something to do with the exploration and doing new things.

~Duane G. Carey

I worked for some very good people who have helped me along the way and actually enabled me to have the opportunity to be selected to join the Astronaut Corps.

~Duane G. Carey

That's what Hubble can do for us. It can tell us whether the universe is expanding forever or if one day it's going to come back together.

~Duane G. Carey

There's been a tremendous amount of work that's been done that you can't see in Columbia.

~Duane G. Carey

I'm looking forward to coming back, back to Earth, the landing, the views.

~Duane G. Carey

Those folks out in the space suits are going to be getting beat up.

~Duane G. Carey

And, all these things need to be coordinated; so we all need to work together, have timers going and everything so we're all coordinated and get this piece of orchestration done.

~Duane G. Carey

So, we have to get up and get pumped up for each day.

~Duane G. Carey

Because when we're in space, my job is primarily getting us there and getting us back.

~Duane G. Carey

Now you're coming back to Earth, and things are getting more and more dynamic.

~Duane G. Carey

Being in space, I'm really looking forward to working with this team of folks that I'm with.

~Duane G. Carey

And, I wouldn't consider myself to be a natural pilot; I've had to work at it.

~Duane G. Carey

And, that's what I truly believe that we're doing when we're advancing scientific knowledge is we're someday making the world better. Not only for our children, but for all people after that.

~Duane G. Carey

I consider myself to be very fortunate in my career, my timing has worked out.

~Duane G. Carey
