Quiet is the element of discerning what is essential.

~Gordon Hempton

I'm in love with Earth. I truly am. And so listening is not work, to work toward a better future. It's joy. To not be able to work toward a better future would be work. That would be tough.

~Gordon Hempton

When you listen to nature, it may still be difficult to live a life, but it's inspiring.

~Gordon Hempton

I would say that to listen is to become aware. To become truly informed. You will discover whatever you do.

~Gordon Hempton

Often how you define the problem will determine whether or not you're able to find a real solution.
