Zoologist, Religious, Made, Average, Believe, Born, Different, Should, Common,
Play, Definitions, United States*

Blacks in the Caribbean, Britain, Canada and sub-Saharan Africa as well as in the United States have low IQ scores relative to whites.

~J. Philippe Rushton

The biological factors underlying race differences in sports have consequences for educational achievement, crime and sexual behavior.

~J. Philippe Rushton

Each race (or variety) is characterized by a more or less distinct combination of inherited morphological, behavioral, physiological traits.

~J. Philippe Rushton

To deny the predictive validity of race at this level is nonscientific and unrealistic.

~J. Philippe Rushton

Those objecting to the concept of race argue that the taxonomic definitions are arbitrary and subjective.

~J. Philippe Rushton

But with each passing year and each new study, the evidence for the genetic contribution to these [individual and group] differences becomes more firmly established than ever.

~J. Philippe Rushton

The mean pattern of educational and economic achievement within multi-racial countries such as Canada and the United States has increasingly been found to prove valid internationally.

~J. Philippe Rushton

I then moved to the University of Western Ontario where I was made a full professor in 1985.

~J. Philippe Rushton

Nonetheless, much has been learned by studying the statistical differences between the various human races.

~J. Philippe Rushton

A race is what zoologists term a variety or subdivision of a species.

~J. Philippe Rushton

Formation of a new race takes place when, over several generations, individuals in one group reproduce more frequently among themselves than they do with individuals in other groups.

~J. Philippe Rushton

Race differences show up early in life.

~J. Philippe Rushton

Of course, individuals vary greatly within each racial group and should be treated as such.

~J. Philippe Rushton

I was born in Bournemouth, England, in 1943.

~J. Philippe Rushton

We emigrated to South Africa and later to Canada so I went to school in several places.

~J. Philippe Rushton

I received a D.Sc. from the University of London in 1992.

~J. Philippe Rushton
