~Jay Inslee

Back in the mid-1970s, we adopted some fairly ambitious goals to improve efficiency of our cars. What did we get? We got a tremendous boost in efficiency.

~Jay Inslee

The need to help spread democracy and the ability to do that will be much greater if we break this addiction to oil, which gives the oil princes and sultans the power in the Mideast.

~Jay Inslee

Tolerance is carved into the rostrum of the U.S. House of Representatives and intolerance should not be carved into the U.S. Constitution.

~Jay Inslee

President Bush's proposal to focus our resources on sending humans to Mars is intriguing, but it is not the most compelling reason that Americans ought to focus our interest on the Red Planet.

~Jay Inslee

But most importantly, we can all be donors. It does not matter how old you are, your race, where you live; all of us can give the gift of life.

~Jay Inslee

We need to get our sons and daughters home and their responsibility for the security of Iraq needs to be assumed by Iraqis who will stand up and toe the line for their countries.

~Jay Inslee

There is no excuse for this administration shielding information about Iraq and the fact that we have great difficulties there from the American people.

~Jay Inslee

On Earth, we still have a beautiful atmosphere that precisely maintains a thermally driven climatic system that shelters, shields and sustains our natural treasures.

~Jay Inslee

Lincoln said that the Patent Office adds the flame of interest to the light of creativity. And that is why we need to improve the effectiveness of our Patent Office.

~Jay Inslee

We must start... rebuilding our cities around energy efficiency and human needs, rather than around the car and wasted energy.

~Jay Inslee

Things are difficult enough about Iraq without the Federal Government suppressing the truth about Iraq.

~Jay Inslee

Now is the time to scrub ideology out of the energy discussion, so we can make bi-partisan progress towards investing in a shared and better future.

~Jay Inslee

When we design our national R&D programs, we ought to ensure a place for the small, the new, and the cutting-edge.

~Jay Inslee

I reflect back 35 years ago, and look how far we have come in America with our environmental policy to improve the conditions of our air and water, and we have had some real successes.

~Jay Inslee
