Small businesses, you can give them capital, but what they often need as much is mentoring, advice and help with their business plan.

~Karen Mills

Small businesses are really the engine in the economy.

~Karen Mills

We don't want to give a business that is not going to come through the troubled waters a loan that they can't pay back.

~Karen Mills

The morale when I came in was not the best. It was because the agency had not been valued.

~Karen Mills

Small businesses want things streamlined, and one of the great successes we're having is less paperwork, faster turnaround times.

~Karen Mills

Small businesses have told us that having cash in their pocket is one of the primary things that they need.

~Karen Mills

One of the most important things we hear is the S.B.A. needs to be ubiquitous. We do all these things, but people still don't know.

~Karen Mills

I saw the S.B.A. with just enormous potential, and that's what I told the president - this is really a jewel.

~Karen Mills

Health care is the No. 1 concern of small businesses and the status quo is untenable.

~Karen Mills

President Obama vowed in his State of the Union address to make assisting domestic manufacturers a top priority for his second term.

~Karen Mills

In October 2008, when the credit crunch hit, small businesses were really crushed by the lack of capital.
