Attention is the way social primates measure status. It is highly rewarding because it causes the release of brain chemicals such as dopamine and endorphins.

~Keith Henson

High status males had multiple wives or additional mating opportunities in the ancestral environment.

~Keith Henson

As for leadership, I am the kind who leads reluctantly and more by example than anything else. Someone had to be on the incorporation papers as president.

~Keith Henson

Successful cult memes induce intense social interaction behaviour between cult members. This trips the attention detectors.

~Keith Henson

If anyone wonders why the airlines are not doing well it is because flying has been made such an unpleasant and degrading experience.

~Keith Henson

Primates will continue to play social games without the least insight into what is killing them.

~Keith Henson

Cult recruiting methods based on dosing victims with the brain chemicals released during capture bonding would make cults even more of a problem than they are now.

~Keith Henson

Could people be trained to be less gullible? Or are you as stuck with gullibility as you are with skin colour?

~Keith Henson

Anyone who has ever had the feeling of being higher than a kite after giving a public speech is well aware of the effects of attention.

~Keith Henson

The information that is passed from person to person and from generation to generation is the primary factor that gives humans a competitive advantage over other animals.

~Keith Henson

Most of the suicide hijackers came from Saudi Arabia, a place not lacking in wealth. But due to rapid population growth, the wealth per capita has fallen by about half in a generation.

~Keith Henson

Cults, or related social movements such as the Taliban in Afghanistan, result in massive military expenses.

~Keith Henson
