The thing about me and books is that whichever one I'm reading always reminds me of whatever's happening in my life during that time.

~Lauren Barnholdt

The information age is so psychotic - without the cell phone and Internet, I would be drama free right now.

~Lauren Barnholdt

When people start liking people, that's when someone has the ability to get hurt.

~Lauren Barnholdt

You have to give respect to get respect.

~Lauren Barnholdt

The thing about loving someone, is that yelling at them only feels good while you're doing it -- as soon as they're gone, all you want to do is take it all back

~Lauren Barnholdt

No matter how much you tell yourself your over someone, your heart knows the truth

~Lauren Barnholdt

My eyes are a little blood shot from crying, and my hair's messy. But other than that i don't look like someone who's world is falling apart.

~Lauren Barnholdt

I prefer to subscribe to that whole, "everything happens for a reason" theory, mostly because the alternative is too disturbing to think about.

~Lauren Barnholdt

You can't bring a duffel bag that says 'I Heart Cheese' on it, that's just

offensive.

~Lauren Barnholdt

The first day of school is bullshit

~Lauren Barnholdt

Sometimes people do things that are complicated. For complicated reasons.

~Lauren Barnholdt

Sizeism = like racism, only against people who aren't a size two or four.

~Lauren Barnholdt

You should never start thinking about 'what might have been,' and you should also never start thinking about another boy when you're heartbroken over someone else.

~Lauren Barnholdt

Fresh, fun and oh-so-romantic, *WILD HEARTS* had me galloping through the pages. I absolutely loved it.

~Lauren Barnholdt

Manipulating situations is one thing, but lying is another. My theory (especially with girls) is that if you don't lie, you can't be held responsible for anything bad that goes down.

~Lauren Barnholdt

Usually the hard stuff you're forced to do makes you learn a lot.

~Lauren Barnholdt

People come and go, in and out of each other's lives like it's nothing. So I don't know how/why this should be a big deal.
