Inspirational, Moving, Understanding Knowledge, Born, Way, Education*

Provide lots of opportunities for children's natural curiosity to manifest itself. With very young children, our role is one of supporter and guide.

~Lilian Katz

Curriculum should help children make deeper and fuller understanding of their own experience

~Lilian Katz

All children, are born with the disposition to make sense of their experiences.

~Lilian Katz

Learning to deal with setbacks, and maintaining the persistence and optimism necessary for childhood's long road to mastery are the real foundations of lasting self-esteem.

~Lilian Katz

In cooperative learning, you have a purposeful, meaningful, and authentic context in which children can sharpen their communicative skills.

~Lilian Katz

Children involved in project work are encouraged to serve the group needs and share responsibility for what's accomplished.

~Lilian Katz

Communicative skills develop when there's something meaningful for children to communicate about-when they are taking an active role.

~Lilian Katz

We are doing earlier and earlier to children what we shouldn't do later.

~Lilian Katz

Science is a particular way of thinking about things.

~Lilian Katz
