Models, Malice, Speak, Mistake*

When leaders are willing to talk through their own decision-making process, making visible that values are an important consideration, this sends a powerful signal to employees.

~Mary C. Gentile

We try to effectively free ourselves up to be creative, to think about what might be possible, to come up with truly innovative ways to enact our values-driven positions.

~Mary C. Gentile

By creating explicit occasions to invite dissenting viewpoints on a new project, strategy or policy, leaders enable employees to feel that their questions are welcomed and appreciated.
