Technology, Risk*

The current situation of the earthquake, tsunami and the nuclear plants is in a way the most severe crisis in the 65 years since World War II.

~Naoto Kan

The trend in the world right now is - not just in developed countries, but in developing countries including China and India - there is a movement to build more and more nuclear plants.

~Naoto Kan

If you are unable to understand the cause of a problem it is impossible to solve it.

~Naoto Kan

So, Japan as a country has lost its vigor, it feels very much closed in for various reasons.

~Naoto Kan

Nuclear arms and atomic power represent a technology in which coexistence with man is extremely difficult.

~Naoto Kan

When the world has 1,000, 2,000, 3,000 nuclear plants, can we call that a safe world? I think we need to properly have this debate.

~Naoto Kan

The safest nuclear power or energy policy is to realize 'zero nuclear power.

~Naoto Kan

It is possible for Japan to become the model of a society that does not rely on nuclear power.

~Naoto Kan

In fact, the Senkaku Islands are... inherent territory of Japan that is

recognized in our history and also by international law.

~Naoto Kan

This quake, tsunami and the nuclear accident are the biggest crises for Japan [in decades] ... We will continue to handle it in a state of maximum alert.

~Naoto Kan

I wouldn't call myself anti-nuclear. I seek a society non-reliant on nuclear energy, a society that can do without nuclear energy, and Japan can prove a role model. It's possible.

~Naoto Kan

I believe in any country, matters that relate to its territory would, of course, provoke strong sentiments amongst the people of that country.

~Naoto Kan

After the Second World War, people in Japan no longer died for their country, and even that expression was no longer used.

~Naoto Kan

While many technological measures can be taken to secure safety at nuclear power plants, such measures on their own cannot cover great risks.
