We should not forget, no matter how we quantify it: 'Freedom is not free.' It is a painful lesson, but one from which we have learned in the past and one we should never forget.

~Paul Gillmor

The current system punishes communities which make the investment in creating landfills, only to have them filled by states which refuse to adequately address their waste issues.

~Paul Gillmor

Specifically, the growing threat that sexual predators pose to our Nation's children and their families represents an area where our criminal justice system has failed the American people.

~Paul Gillmor

In addition, each barrel of oil we save through conservation further decreases our dangerous reliance on unstable Middle East oil.

~Paul Gillmor

The Declaration of Independence is a sacred part of American history.

~Paul Gillmor

I believe it is incumbent upon Congress to act aggressively to ameliorate fear and help our country take the essential steps that will make our communities and lives safer.

~Paul Gillmor

As the cost of gasoline rises and our dependence on foreign oil continues to increase, the effect of sending over \$100 billion each year to OPEC nations hurts every American.

~Paul Gillmor

Enrolling in the Medicare Prescription Drug Program will be a great savings for most senior citizens.

~Paul Gillmor

Americans in all places and levels of government have begun to consider the areas where we need to prepare ourselves from future threats, including the latest weapon: bio-terror.

~Paul Gillmor

To date, every American citizen has nearly \$27,000 in public debt riding on our backs.

~Paul Gillmor

Insurgents throughout Iraq continue to threaten our efforts and pose a danger to stability in the region. They fight not for their country, but rather against ours.

~Paul Gillmor

Following the devastation of Hurricanes Katrina and Rita, \$3 per gallon gasoline became common and our nation has come under considerable strain.
