

Robert Trout Quotes

*India, Philosophy, Republic, Levels, Chinese, Use, Successful, Confucianism,
Order, Medicine, Happiness, Addiction, People, Poison, Easter, Ugly, Pain,
Empires, Too Much, Never Forget*

In order for a society to survive, it must generate a sufficient level of physical production both to meet its current needs, and to produce a surplus for upgrading its productive powers.

~Robert Trout

Were you to read the British press today, you would learn that the British Empire never forgets its defeats.

~Robert Trout

Although the Chinese had used opium as a medicine, there was no widespread addiction before the British arrived.

~Robert Trout

The britishh seizure of Hong Kong was an aspect of one of the most ugly crimes of the britishh Empire: the takeover and destruction of India, and the use of India to flood China with opium.

~Robert Trout

The American Revolution was, in fact, a battle against the philosophy of Locke and the English utilitarians.

~Robert Trout

The East India Company established a monopoly over the production of opium, shortly after taking over Bengal.

~Robert Trout

The East India Company's domination of the Indian economy was based on its private army.

~Robert Trout

Leibniz dedicated his life to efforts to educate people to understand that true happiness is found by locating their identity in benefitting mankind and their posterity.

~Robert Trout

Many Chinese saw opium as a poison introduced by foreign enemies.

~Robert Trout

Confucianism strongly condemned the use of drugs like opium.

~Robert Trout

The myth that the founding of American Republic was based on the philosophy of John Locke could only have been maintained, because the history of Leibniz's influence was suppressed.

~Robert Trout

The myth that John Locke was the philosopher behind the American Republic, is easily refuted by examining how Locke's philosophy steered Thomas Jefferson, for example.

~Robert Trout

We fear doing too little when we should do more. Then atone by doing too much, when perhaps we should do less.

~Robert Trout
