It's essential that a part of you not grow up. Childhood wonder gives us our spark and beauty.

~Robin Quivers

An apology might help, but you can change your life without one.

~Robin Quivers

I was 11 when I was molested. It was like a nuclear explosion going off in my life, destroying everything.

~Robin Quivers

If Thomas Jefferson had heard us, he probably would have said, 'We shouldn't have free speech.'

~Robin Quivers

We shouldn't have free speech.

~Robin Quivers

People think that if [their abusive] parent apologizes, he'll turn into the person they needed him to be. He won't. An apology might help, but you can change your life without one.

~Robin Quivers

So you start one person at a time. Change one person, you can change a village.

~Robin Quivers

Too many people don't do things for fear of falling. You'll never get good unless you fall. Experiences and new accomplishments are feelings we should never lose.

~Robin Quivers

I thought being vegan was going to be some really horrible way of life that had no flavor.

~Robin Quivers

I had a major surgery, a major abdominal surgery, and a mass was removed from my pelvic area, and I do have some more recovery to do. But everything seems to be fine.

~Robin Quivers

I, quite frankly, am grateful for every day. I don't take anything for granted.

~Robin Quivers

I made the connection between food and weight, but feeling good or bad was a separate issue.

~Robin Quivers

When you go out on a limb, that's when you really know you're living

~Robin Quivers

Changing my body has given me the ability to do all these amazing things that I never in a million years imagined I could do.

~Robin Quivers

So the point is, I don't have a right to tell anybody what's right or wrong about their lives. Who am I to tell you at any given moment of the day what would be right for you?

~Robin Quivers

I think I have some interesting things to say and I don't think anybody out there is saying them.

~Robin Quivers

I was having health issues all my life. You're just not conditioned to think of them as health issues.

~Robin Quivers
