

Samuel Wilson Quotes

*Practice, Physicians, Technology, People, Environmental, Community, Medical,
Environmental Health, Important, Continuity, Medicine, Decision, Problem,
Responsibility, Leader, Understanding, Achievement, Seven, Program,
Memorial*

I am also actively involved in my church and its community activities. We have programs to improve the lives of our congregation and programs of outreach in the community.

~Samuel Wilson

One of the biggest challenges to medicine is the incorporation of information technology in our practices.

~Samuel Wilson

I spent some time at White Memorial Medical Center as a senior medical student doing a rotation in surgery; however, I felt I wasn't getting enough time assisting.

~Samuel Wilson

I would like the Medical Society to be one of the resources for information about the influences that have an impact on our patients and our practices.

~Samuel Wilson

Compulsive modernization is the insatiable desire to change and grow.

~Samuel Wilson

The infrastructure for linking environmental health and public health is not working as well as it should.

~Samuel Wilson

I would like to promote the concept of a partnership of insurance companies, physicians and hospitals in deploying a basic framework for an electronic medical records system that is affordable.

~Samuel Wilson

The liquid state of modernity is corrosive to continuity.

~Samuel Wilson

We all recognize that in recent decades, many important achievements have helped create a cleaner, healthier environment, yet our national needs in environmental health are not being fully met.

~Samuel Wilson

I completed medical school at Loma Linda University School of Medicine in 1984.

~Samuel Wilson

One of the responsibilities faced by the Environmental Genome Project is to provide the science base upon which society can make better informed risk management decisions.

~Samuel Wilson

It is important to consider whether the sample size selected by the Environmental Genome Project will provide sufficient power to discover most alleles relevant to gene-environment interactions.

~Samuel Wilson

As population susceptibilities are better understood, we will be in a better position than we are in today to make informed decisions about risk management.

~Samuel Wilson

Effective leaders of change must serve equally as agents of change and protectors of continuity.

~Samuel Wilson

There is no doubt that environmentally related diseases will continue to pose problems in the future.

~Samuel Wilson

Unless physicians stand together to fight threats and injustices, our practices cannot remain viable in the future.

~Samuel Wilson

I decided I wanted to be a physician when I was seven years old.

~Samuel Wilson
