Be passionate and bold. Always keep learning. You stop doing useful things if you don't learn.

~Satya Nadella

Finally, I truly believe that each of us must find meaning in our work. The best work happens when you know that it's not just work, but something that will improve other people's lives.

~Satya Nadella

Our industry does not respect tradition - it only respects innovation.

~Satya Nadella

Our ambitions are bold and so must be our desire to change and evolve our culture.

~Satya Nadella

The way I measure my life is 'Am I better than I was last year?'

~Satya Nadella

You renew yourself every day. Sometimes you're successful, sometimes you're not, but it's the average that counts.

~Satya Nadella

Many companies aspire to change the world. But very few have all the elements required: talent, resources and perseverance. Microsoft has proven that it has all three in abundance.

~Satya Nadella

Microsoft is the productivity and platform company for the mobile-first and cloud-first world.

~Satya Nadella

I think playing cricket taught me more about working in teams and leadership that has stayed with me throughout my career.

~Satya Nadella

I marvel every day at how people can excel - and that's what really gets me going.

~Satya Nadella

If you are going to have a risk-taking culture, you can't really look at every failure as a failure, you've got to be able to look at the failure as a learning opportunity.

~Satya Nadella

Our mission of empowering every person and every organization on the planet to achieve more is really a look back to the very creation of Microsoft.

~Satya Nadella

What was true then and what is true now is that we create technology so others can create more technology.

~Satya Nadella

This is a software-powered world.

~Satya Nadella

This notion of universal Windows apps is a very powerful concept because we're now aggregating the 300-plus-million-socket run rate of Windows into one opportunity for our developers.

~Satya Nadella

One of the key things in the tech business in particular is that you need to be able to push boundaries.

~Satya Nadella

Technologies will come and go, so you need to be able to both ask and answer the question: What do you do as a company, why do you exist?

~Satya Nadella

Every time you think all the technology that had been created already, all you have to do is look around and then there's someone new who's born with a new idea.
