Sebastian Thrun Quotes

Years, Self, Car, People, Technology, Google, Failing, Brain, Way, World, Looks, Ability, Real, Rumor, The End Of The Day, Moon, Process, Glasses, Quitting, Problem

I have been spending the better part of my professional life trying to create self-driving cars. At Google, I am working with a world-class team of engineers to turn science fiction into reality.

~Sebastian Thrun

I'm really looking forward to a time when generations after us look back and say how ridiculous it was that humans were driving cars.

~Sebastian Thrun

At the end of the day, the true value proposition of education is employment.

~Sebastian Thrun

You can't change the world without a certain amount of healthy willingness to break the rules.

~Sebastian Thrun

People mainly fail because they fear failure.

~Sebastian Thrun

My process is learn, decide, and do. I've never seen a problem that couldn't be solved this way.

~Sebastian Thrun

In 50 years, there will be only 10 institutions in the world delivering higher education and Udacity has a shot at being one of them.

~Sebastian Thrun

Its a no-brainer for me that at some point our cars will have the ability to drive themselves.

~Sebastian Thrun

I have a strong disrespect for authority and for rules. Including gravity. Gravity sucks.

~Sebastian Thrun

Question every assumption and go towards the problem, like the way they flew to the moon. We should have more moon shots and flights to the moon in areas of societal importance.
~Sebastian Thrun

That's what Google taught me. Aim higher. Udacity is my playground - to radically experiment and find out. I've seen the light.
~Sebastian Thrun

The Inventor Of Google Glass Says It Could Outsource Our Brains
